COFFINS MADE USING SOLAR ENERGY

HALLIDAY
FUNERAL SUPPLIES LTD
Flexible • Ethical • Trusted

A family business since 1979

Please note that all products are shown with external furnishings for the purpose of illustration only. Furthermore, all pictures have been generated by the use of flash photography and the shading of all products is purely indicative. Every effort will be made to replicate the shadings as accurately as possible, but this catalogue is no substitute for viewing an item in its entirety. A fully fitted service is available to your own specification. All coffins are available in gloss or matt finish.

Tel: 0800 068 8177 | www.hallidayltd.co.uk

Welcome to the Halliday Family.

Halliday Funeral Supplies Ltd and P&L Manufacturing

Since 1979, we have built a reputation for quality craftsmanship and reliability, meeting the needs of Funeral Directors throughout the UK and from Gibraltar to the Falkland Isles – often at very short notice.

The mark of responsible forestry

Each year we process over 5,000 tonnes of Forest Stewardship Council® (FSC®) certified wood and our products are used in more than 130,000 family funerals.

We are continually adding to our selection of quality coffins and caskets, which range from simple to high-build caskets. We are committed to providing exceptional customer service, outstanding products and competitive prices.

All our coffins have been rigorously tested by the FFMA, and Funeral Directors can be assured that the products we supply conform with all cremation and burial requirements.

We are proud that over 95 per cent of our coffins can be FSC certified. In fact, we are currently the only company to manufacture FSC certified coffins and flat-pack coffin sets. FSC is recognised by WWF as the “hallmark of responsible forest management”.

Hallidays is also a long-standing member of Sedex - one of the world’s leading ethical trade service providers which works to improve working conditions in global supply chains.’

Our commitment to you:

- Family-run business traditions – service & care
- Delivery – a reliable, efficient distributor
- Timescales – equipped to meet tight deadlines
- Emergency service – for urgent situations
- Environmentally friendly – full commitment
- Customer care – exceptional standard
- Adaptability – we can modify designs to suit requirements.

Our commitment to you:

- Choice - a variety of shapes, colours and styles
- Packaging - all products individually wrapped
- Customised specifications - to suit your needs
- Environmentally friendly - regularly assessed
- Efficiency - meeting your timescales
- Emergency carriage - a dedicated service for regular customers
- Prices - very competitive at all times.

About us

We are a family business, founded in 1979 by Dawn Halliday and today run by her three sons, Stephen, Richard and Philip.

We have grown considerably over the years and continue to do so, with a commitment to investing in our people, machinery, factory and the environment.

We have a deep and rich understanding of our market, but we are also a modern, innovative business, responsive to change and looking to take a lead in seizing opportunities to meet the requirements of today's and tomorrow's customers.

Today, we employ over 50 people, many of whom are skilled craftsmen who have been with our company for many years.

As our new 1,100 Solar Panel System comes online it will enable us to produce our products free from fossil fuels for large parts of the year, as well as powering our electric fleet as it starts to take shape. Oh, and there's an added benefit of saving over 95 tonnes of Co2 each and every year. We also use our Biomass Systems to divert more than 460 tonnes of wood waste from landfill and to convert this waste into useable heat for our premises.

By buying FSC®-certified products
you help take care of the world's forests
(www.fsc.org). Look for our FSC-certified products.
FSC® C103577.

Flexible

We provide our customers with an unrivalled selection of quality coffins and caskets from entry level to bespoke coffins at competitive prices. We pride ourselves on offering a high standard of service and we are equipped to deliver to tight deadlines. We constantly listen to our clients in order to meet their changing needs.

Our team has the capability to react immediately to urgent situations and manufacture bespoke coffins to a customer's individual specification at short notice. As an established distributor of coffins we deliver nationwide, including London, Glasgow and the Isle of Man. We remain one of the few companies which still deliver almost any coffin to your doorstep in 48 hours.

We can provide almost everything a Funeral Director needs – a comprehensive range of coffins as well as all fittings and accessories. If we do not stock what a customer wants, we will do our best to find it for them.

Our company values are that we are “flexible, ethical and trusted”. It is these core values which underpin everything we do as a business.

Ethical

As an FSC certified company, we recognise that our future success as a coffin manufacturing company depends on the continued availability of timber from the forests of the world. We are fully committed to recycling processes and of insisting that where felling does take place, replanting is undertaken to ensure the continuity of raw materials.

Many of our suppliers already have a Chain of Custody Certificate from recognised bodies and are subsequently FSC Certified. Halliday FS will continue to exert its influence with its suppliers to ensure that all of the selected materials can be traced back to wood from responsibly managed forests.

Trusted

We are proud to be part of the great tradition of saying ‘farewell’ to our loved ones in this country. We are committed to using a fully renewable resource - wood.

Our aim is to help Funeral Directors facilitate a dignified and respectful service where families can feel that they have fulfilled the final wishes of their loved ones.

We have recently been recognised by the Greener Globe Funeral Awards as an environmentally responsible Company. After rigorous auditing we were awarded its highest level accolade - Platinum.

We remain committed to source, manufacture and deliver our products in a considerate and sustainable manner.

 **Ashton Oak**

Foil coffin with matching mouldings.
